Pool Safety

Over the last five years over 150 Australian children under the age of five drowned. While all of these drowning deaths are preventable, it is the 50% that occur in home swimming pools where **your immediate action** can make a difference.

Home pool fencing and effective supervision can reduce these tragic drowning deaths to zero. Royal Life Saving wants every home pool owner to take responsibility for the safety of their children.

Book a Pool Inspection – Help eliminate child drowning today

What we do

One of our pool inspection specialists will assess your pool to make sure you are compliant with the Australian Standards of Pool Safety.

- Swimming pool fencing
- Swimming pool gates
- What is around the swimming pool fence

Once we have assessed your pool against the Australian Standards of Pool Safety and your pool is deemed compliant, you will be issued with a Certificate of Compliance for the property.

Australian Standards

The Standards your pool will be assessed against are:

- AS1926.1-2012 : Swimming pool safety – Safety barriers for swimming pools
- AS1926.2-2007 : Location of safety barriers for swimming pools

How to book an inspection

1. Go to: www.royallifesavingsa.com.au/poolinspections
2. Click 'Book a Home Pool Inspection'

Flat Fee - \$250

This fee includes an initial inspection, certificate of compliance with Australian Standards of Pool Safety, and a secondary inspection if required.
